

LASIK CHECKLIST

At New Vision Laser Center, we strive to provide compassionate care.
We emphasize patient education, to be sure that all of your questions are answered.

If you are a candidate for LASIK, all of your care – from the preoperative evaluation to the postoperative care – will be done by your surgeon. We also can co-manage your care with your local ophthalmologist or optometrist if you choose.

We know you have a choice of where to go for your LASIK vision correction and want you to have all the facts before you make this important decision, so be sure to consider the following questions of any provider you're considering:
